

Salt Lake Democrat.

THURSDAY, JUNE 25, 1885.

ARRIVALS AND DEPARTURES OF MAILS

at the Salt Lake City Postoffice.

ARRIVE.	CLOSE.
Eastern	5:30 p.m.
California and West	7:30 p.m.
Montana and North	8:00 p.m.
D. & R. G. East	8:30 p.m.
Ogden, Utah	11:30 a.m.
Ogden, Utah	8:00 p.m.
Park City	8:00 p.m.
Tooele County	4:25 p.m.
Alta, Utah	10:30 a.m.
Richmond, Utah	6:30 a.m.
Southern Utah	6:30 a.m.

The above is standard mountain time.

JOHN T. LYNCH, Postmaster.

Salt Lake City, Utah, March 22, 1885.

Silver Quotations.

Corrected daily by Wells, Fargo & Co.
Silver, New York, per 100 lbs. 1.00%
Silver, London, per 100 lbs. 1.00%
Lead New York, per 100 lbs. 3.50

Hats! Hats! Hats!

Spring and Summer Styles now in. We are Sole Agents for all the fine New York Hatters, including Youmans, Knox's, Silverman and Thomas Townsend & Co., London. We also carry a complete line of John B. Stetson & Co.'s Fine Hats.

Noble, Wood & Co.

The Exclusive Hatters.

To the Public.

Subscribers to the DEMOCRAT are respectfully requested to report without delay any neglect in delivering, or any undue lateness in the delivery of the paper. A postal card on this subject addressed to THE DEMOCRAT will always meet prompt attention.

LOCAL JOYS.

"How's your liver?"
Anton Stuben, for being drunk, was fined \$5 in the police court to-day.

The Utah Central freight office boys got away with the "draymen train" last night. Score 11 to 8.

L. E. Hollingsworth was arrested to-day for stealing a ride on the Utah Central and confined in the City Jail.

Two miners were admitted into St. Mark's Hospital yesterday. They are afflicted with the common lead poisoning.

Sarah Whitworth, a native of England, was granted naturalization papers in the Third District Court to-day.

The funeral services of Samuel Ensign will be held at the Eighth Ward school-house to-morrow afternoon at 1 o'clock.

Yesterday a laborer in the Ontario mine at Park City was brought to St. Mark's hospital for treatment of an injured leg from a cave.

The Madison Square Company repeat their success of "The Private Secretary" to-night, and will give "The Professor" to-morrow night.

Mr. W. A. Brim, in from Ophir, reports that several new claims are being opened up, and that Ophir Mining district never looked more flattering.

The lawn fete at Rowland Hall this evening will be largely attended. A band of music, good refreshments and a pleasant time for all present.

Louis Bamberger will sell base ball pools at Tomney & Hillebrand's to-night for the match game to come off between the Red Boys and Athletics to-morrow.

The Troy Steam Laundry announces a reduction elsewhere, and intend to knock out Chinese competition, both in price and work. The Troy gives general satisfaction.

The rise in lead to \$3.80 per hundred in New York is encouraging to the lead mine owners of Utah. It is expected that the Horn Silver will resume shipments in three months.

A party of eighty-five California tourists will arrive here Sunday morning and remain until Tuesday. From here they will use the scenic to Denver and thence by the Union Pacific.

The short piece of sidewalk on the west side of the Kimball Block is getting pretty badly broken up, and is a terror to pedestrians. It should be either removed entirely or replaced by new planks.

Now that the fever is raging, the "latest" rumor in society is that a prominent young railroad man of Salt Lake will shortly affiliate with one (but one) of Zion's fair daughters, and take a trip East.

More than a dozen excursion cars, loaded with members of the Ancient Order of United Workmen, went to Gravelly to-day. The band played lively airs as the trains pulled out for the scene of the day's sport.

A man who had lost a \$20 bill on the street last evening, near the Theatre, attracted quite a crowd of "kicks" and sympathizing people, who used their eyes and advice to help him recover it, but to no purpose.

A boy about 9 years of age was bitten by a big dog on first South street this morning. There seems to be too many small boys and too many dogs running about the streets of this city. Both dogs and boys ought to be kept at home.

The shipment of silver bars to-day, says the Butte Inter Mountain of Monday last, was one of the largest of the year. The shipments were as follows: Helena, one bar, \$1,344; Lexington, ten bars, \$21,841; Alice, twelve bars, \$17,200; Moulton, ten bars, \$15,876; total, \$56,061.

The attention of the special policeman appointed to inspect back yards and allies is called to the manner in which a large stable that is being dumped on a vacant lot at the rear of Armstrong's flour mills, is doing the indignation of the people living in the immediate neighborhood.

This afternoon a woman from the country lost a 3-year-old child in Market row. It disappeared up the alley between Mrs. Smith's and the butcher shop west, and has not been seen since. The mother, carrying a younger one in her arms, was petting the little one anxiously enquiring for her lost little one.

The report that all the mining property in Wood River of ex-United States Marshal Shaugnessy has been attached is probably a little exaggerated. It is true that Shaugnessy has lost a great deal of money, but it is not believed that he is by any means "broke." Mrs. Shaugnessy has mining interests in Wood River in her own name valuable enough to foot up a fortune.

PERSONAL.

Henry Cohn went south on the D. & R. G. to-day.

Mr. H. B. Stout, of Lincoln, Nebraska, is registered at the Continental.

Assistant Superintendent A. L. Horner, of the Rio Grande, and Mr. George Goss, went to Grand Junction, Colorado, by the scenic to-day.

Mr. A. J. Cobb, Jr., for a long time with the Utah Traffic Association at Ogden, is visiting his many young lady and gentlemen friends of Utah, on route from Lincoln to San Francisco.

C. H. Phillips, chief pool inspector of the Colorado Association at Kansas City, turned home this morning after several days work in this city. The association has made some arrangements in expenses by letting out several of Mr. Burke's men along the lines.

Use "Syrup of Prunes"

For Constipation. Price 75 cts. per bottle. For sale at all Druggists.

For a First-Class Lunch

Call at the Fountain Lunch Stand, old Lincoln Bank Building. Hot Lunch from 11 a. m. to 3 p. m. The neatest place in town.

D. BROOKS, Proprietor.

The late unpleasantness is over, the license war is done, and I am again to the fore at the Brewery, and will be pleased to enter my friends who may be inclined to visit me there.

HENRY WAGNER.

BRASS BEDSTEADS at Barratt Bros.

OUR HIDDEN BONANZAS.

Dr. Hayward's Electric Mine-Indicator Coming to Utah to Show Them Up.

The wonderful claims of the electric mine-indicator, an invention of Dr. Hayward, of New York, have been alluded to already in the DEMOCRAT, and it is a pleasure to know that the inventor himself will soon be in Utah, the guest of Col. Froiseth, for the purpose of demonstrating to all the actual practical value of the machine of which such glowing representations are made.

The electric mine-indicator is to all appearances an ordinary electric battery, the ground electrodes being two upright pins connected by an insulated block. These pins are placed in the ground wherever a vein of mineral is supposed to be, and as most minerals have a strong electric action, if the vein exist underneath a current is set up and the needle of the galvanometer indicates the strength of it. On barren ground, there is no electric action shown, and the needle remains stationary.

It is claimed that by the aid of this wonderful machine all existing mineral veins or ore deposits can be discovered, located, defined and traced out, even within fifty feet or more from the surface of the earth, and whether visible indications or outcroppings exist or not. This apparatus accomplishes in a few hours what it would otherwise take months to do, and saving the great money outlays required in blindly hunting for veins by cross-cutting, tunneling or prospecting shafts. It finds all seemingly lost veins, and indicates whether in pinched out ones work ought to be continued. It gives the length, breadth, running course and probable distance from the surface of every vein discovered so accurately that a perfect map of the same can be made.

This invention, and all letters patent issued protecting the same by the United States and Canada, is now the property of a company duly organized under the laws of New Hampshire, entitled The Electric Mine-Indicator Company, with a capital of \$500,000, divided into 100,000 shares at a par value of \$5 each, forever non-assessable, whose purpose it is to bring this valuable apparatus into general use in every mining district in this country. The charge for the examination of each mineral ground and location of veins thereon will be \$500 cash and upwards, and either a royalty of from 35 cents to \$2 per ton of ore produced, or an interest in the mine equivalent to the royalty, as the company may elect. In case of the latter, the property must be paid for and the title perfect, and if stocked, the stock must be non-assessable and fully paid up. The profits thus paid will be simply enormous and the stock will be worth hundreds of dollars.

The company is at present negotiating with parties controlling but a small part of the mining grounds of Georgia for the examination of 100 mineral properties, and the value of the same in that State alone. It is thought that the indicator is in successful operation in every mining country, the stock will be as valuable as the Bell Telephone stock. The income will be enormous, while the expenses will scarcely be enough to be mentioned.

The Madison Square Company repeat their success of "The Private Secretary" to-night, and will give "The Professor" to-morrow night.

Mr. W. A. Brim, in from Ophir, reports that several new claims are being opened up, and that Ophir Mining district never looked more flattering.

The lawn fete at Rowland Hall this evening will be largely attended. A band of music, good refreshments and a pleasant time for all present.

Louis Bamberger will sell base ball pools at Tomney & Hillebrand's to-night for the match game to come off between the Red Boys and Athletics to-morrow.

The Troy Steam Laundry announces a reduction elsewhere, and intend to knock out Chinese competition, both in price and work. The Troy gives general satisfaction.

The rise in lead to \$3.80 per hundred in New York is encouraging to the lead mine owners of Utah. It is expected that the Horn Silver will resume shipments in three months.

THE MADISON SQUARE SUCCESS.

The Sparkling Farce Comedy, "The Private Secretary," Last Night.

The announcement that the Madison Square Company would commence an engagement at the Salt Lake Theatre last night in their great success of "The Private Secretary" drew a larger house than has been present there for many months. "The Private Secretary" is a roaring three-act comedy, touching a great deal upon the burlesque, but exceedingly clean, neat and crisp in its construction. Of course no such English craze ever existed as the Rev. Spaulding—none such could exist—but the strangely ridiculous and unique creation is productive of never-ending mirth. It may be said that Gillette and Kennedy "Cattermole" has no superior in his line of business, and the scene between the two made the audience roar. When "Cattermole" gets in his work on the dyspeptic-looking curate by his everlasting inquiry, "How's your liver?" the house shouted, and the general merriment depicted in endeavoring to get rid of his supposed nephew without attracting the notice of the rest of the company is exhilarating in the extreme. Gillette's face and legs are poems of long metre, and his voice is a curiosity of itself. Undoubtedly Gillette has made "The Private Secretary" what John T. Raymond has created "Colonel Sellers"—a simply inimitable.

The support is excellent all around, and those who have not yet seen what is probably one of the funniest plays on the boards to-day, should not fail to see "The Private Secretary" this evening, when it will be produced for the last time.

UPPER WOOD RIVER COUNTRY.

The Telephone Extension—An Encouraging Mining Outlook.

C. F. Annett, President and General Manager of the Rocky Mountain Bell Telephone Company, left to-day for Salt Lake, after having issued calls for bids for poles, and for extending the line to Galena, Sawtooth and Vienna. He will return in about three weeks and then decide upon the extension of the line to the points named and to Atlanta. The line to Sawtooth and Vienna will be forty-two miles long, of which thirty-five miles will have to be supplied with poles. The remaining seven miles of the wire will be strung in the timber.

Mr. Annett reports the upper country looking very encouraging, indeed. All the mines in and around Boulder, Galena, Sawtooth and Vienna that are worked at all are showing better than ever, and the prospectors look confidently to better times in the near future, as they propose to realize on their ores.

The Vienna mill dropped its stamps last Thursday, after a couple of months' idleness. The bins are full of ore, and there is a large body of it in sight in the Vienna mine.

The Silver King concentrator blew its whistle for the first time Friday, and caused general rejoicing in Sawtooth. If the mill works satisfactorily (of which there seems to be no doubt), it will put over \$100,000 in circulation in the upper country before winter.—Haley Times.

Merry Wedding Bells.

The marriage of Miss Capitola Slade, of this city, to Mr. Albert S. Martin, of Logan, Ohio, last Tuesday evening, at the residence of Capt. S. Paul, 653 East Second South street, Salt Lake, was a brilliant affair. The ceremonies were performed by the Rev. Dr. McNiece, of the Presbyterian Church, in the presence of some eighty friends of the contracting parties. The bridegroom was rich and elaborate and bespoke the esteem in which the happy couple are held by their Utah friends. Mr. and Mrs. Martin left for the East this morning, with the best of wishes following them.

St. Mary's Graduates.

Yesterday the graduating exercises of St. Mary's Academy of Salt Lake conducted in a most entertaining manner and participated in by some 200 young ladies and little misses. The extensive programme embraced recitations, essays, and all the varied introductions for which this first-class institution of learning is justly celebrated. The gold and silver medals awarded the pupils were elegant, and presented with appropriate remarks. All present were highly pleased with the good showing.

Fell and Broke His Arm.

Little Charley Murphy, a 7-year-old son of Mr. E. Murphy, of the Twelfth ward, fell and broke his left arm near the wrist joint yesterday afternoon. Dr. Hamilton was summoned and set the broken member, which is doing well at the present time.

Dr. Henley's Celery, Beef and Iron cures Neuralgia and Nervous Headache.

How to Consult Dr. Foote, Sr., by Mail. Dr. Foote, Senior, author of "Plain Home Talk," "Medical Common Sense," etc., etc., would say to those who would like to consult him by mail that they can have a list of questions and a circular of Salt Lake City. The doctor has arranged to have such information supplied in this matter. The correspondent can describe his or her case fully and direct it to the doctor, in New York. Dr. Foote is successfully treating all forms of chronic diseases, a specialty to which he has devoted thirty years of study and practice. Evidences of his success can also be had by addressing Box 414, as above, but for letters of consultation and orders for remedies should be addressed to Dr. E. B. Foote, Sr., 120 Lexington Avenue, New York City, N. Y. Consultation free. An advertisement of Dr. Foote, Sr., in another place deserves attention.

Arbogast's Celebrated Boston Ice Cream.

The finest in the Territory, supplied to families, church societies and picnics in any quantity. Prompt delivery and lowest prices. At 48 E. First South street.

John Taylor & Son, No. 43 and 45 Second South Street, have just received a choice lot of Spring and Summer Wools, which they offer to make up in first-class style, at greatly reduced rates.

China and Japan Bazaar.

A large assortment of imported goods always on hand; also Fireworks for the Fourth of July. No. 267 S. Main street. Hoss Hor.

The First in the Season.

A fine assortment of Spring and Summer clothes of the very latest pattern have just arrived at J. B. BAUMGARTEN, 111 Main Street. The Tailor.

Dr. Henley's Celery, Beef and Iron cures Debility and Loss of Appetite.

Old Herald building.

THE MUSIC OF THE RAILS.

Singing the Praises of the Little Giant.

Comfortably seated in his palatial office sat S. W. Eccles this morning. Steeped in business, as usual, he little expected the onslaught that the reporter, hard up for an item, was about to make on him. Yet notwithstanding the pressure of business, he yielded gracefully to the pumping process.

"Is it true that your road is getting the major share of the passenger traffic from California?"

"Well, yes, I am glad to plead guilty to the accusation. We are getting fully seventy-five per cent. of the traffic from the West as shown by the pool commissioner's report. Most people prefer taking the line that presents the greatest variety of scenery, and there is hardly a question in any one's mind as to the superiority of the D. & R. G. line in that respect."

"Does the U. P. acknowledge that fact?"

"It would seem so. You perhaps have not heard that the Northern Pacific and Union Pacific have placed on sale in the East tourist tickets to the Yellowstone National Park, made returnable via the D. & R. G. This is a slight straw which shows which way the wind is blowing."

"Have you made any arrangements concerning the transportation of G. A. R. members to San Francisco next season?"

"Oh, yes; both the U. P. and our road have submitted very low rates to the reunion now being held at Portland, Maine, and it is highly probable that the next years' meeting at San Francisco will bring many visitors to Zion, just as the biennial convocation of Knight Templars to the Coast a few years ago."

PRISONERS FROM THE PEN.

The Would-Be Incendiaries—Lucy Devereaux Before the Grand Jury.

Five prisoners were brought in to-day from the Penitentiary charged with attempting to burn that institution some few weeks ago. Their names are Joe Davis, A. Moore, Green, the "Government Kid," and Fields. These fellows all have a history.

Joe Davis, convicted some two years ago for assault with intent to kill, was sentenced to the Utah penitentiary, and after serving the most of his sentence, he jumped one of the guards and escaped to San Francisco, where he was captured and returned for two years. The others are either awaiting trial or serving sentences for crimes committed.

Miss Lucy Devereaux, committed to the pen some five weeks ago for contempt of court, visited the Marshal's office and Grand Jury room to-day for the first time since her sentence. A DEMOCRAT reporter was given permission to ask a few questions, to which Miss Devereaux replied that she was feeling well, but thought it a treat to visit the city. The provisions are very good, but without butter or sugar, which is greatly missed. Through the kindness of Brother Carson she is furnished with plenty of milk from his allowance, for her baby. Saved being a trifle emaciated, the lady looked and appeared to be as well as when committed. Her alleged husband, Newson, entered the office and stepped briskly up to the woman now sitting before him, but before he had time to say more than a complimentary "Howd' do?" the officers escorted him to the Grand Jury room.

ON THE OTHER SIDE OF JORDAN.

Taking in Another Native on the Same Old Charge.

To-day at about noon, Deputy Marshals Greenman and Collin took a ride over Jordan in search of one of the members of Utah's Ancient Order of United Church Workmen, named E. H. Hansen, and found him hauling sand about three miles from home, toward the Bingham Divide. His home is about one mile and a half from Joab Lawrence's place, eight miles from the city, on the road to Lake.

When the officers went up to Hansen, he said "all right," and was brought in. His two wives, Anna Maria Hansen and Annie Jensen, and all of the second wife's relatives, embracing a few less than a hundred, were summoned. The second wife and her three little children were found huddled in a small dug-out in a bank, and would not have been found but for the close scrutiny of the deputies, who seem to have a cultivated sight and were brought before Commissioner McKay between 4 and 5 o'clock this afternoon for the necessary examination.

A Link Between Cleveland and Jackson

When the President came down stairs the other day there was a large crowd of callers in the east room. The President was soon busy in shaking hands and exchanging greetings with his callers, when the crowd suddenly parted to admit a handsome old lady with snowy-white hair and a pleasant face. She grasped the President's hand and said, smilingly: "I am Mrs. Reeside, of Woodbury, Baltimore county, Maryland. I am 89 years of age, and want to shake hands with you. I have been inside of the White House since 1837, when I shook hands with Hickory Jackson." The President shook the old lady heartily by the hand, and leading her to a chair, talked with her for some time. He then received his callers, but the old lady was not neglected, for she was surrounded by a large crowd. The ladies in the room covered her face with kisses, and some Iowa editors who were present asked as a special privilege to shake her by the hand. Mrs. Reeside said she was glad she came. The President said that he was, and invited her to come again.

Dr. Henley's Celery, Beef and Iron restores Lost Vitality.

Protect Your Family.

It is the duty of every man, rich or poor, who has created a home, to make some provisions against the inevitable, and this most desirable result can be obtained by procuring a policy in the Mutual Life Insurance Company of New York, the oldest active company in America and the largest life insurance company in the world. Rates, etc., furnished by Louis Evans, Agent, 55 Main street, Hooper & Eldridge Block, Salt Lake City.

When the weary, hungry traveler casts about for a place to lay his head, he will find the best and most satisfactory meal and bed at the White House.

For a fashionable suit of clothes, or anything else in the tailoring line, at most reasonable prices, go and talk to H. F. CLARK.

THE FREIGHT ON UTAH SALT.

High Rates Causing a Kick From the Butte Milling Men.

It is sincerely to be hoped, says the Butte Inter-Mountain, that the Union Pacific management will take into careful consideration the facts and figures which have been presented to them by the mill men of this district, touching the present rate on salt. That the rate of \$20 per ton from Ogden is too high, there can be no question. Silver mining in Butte to-day is not what it was three or four years ago. The mines are much deeper, the volume of water has increased, the ore has grown base, and, in short, the cost of extraction and reduction has been very largely increased. It is true there is an abundance of silver ore in the camp, but it is mainly of a very low grade. The choicest free milling bodies have all been worked out, as far as discovered. The silver ore being mined here to-day will not average more than thirty-five ounces to the ton. If it falls much below this it cannot be profitably reduced. When the ore is base it requires from 12 to 15 per cent. of salt
